

MICUL FERMIER CATALOGUE 2022

We, Micul Fermier, sell equipment, spare parts and supplies and we are offering a vast portfolio of tools and implements for the home, farm, garden and orchard.

We offer homemakers and farmers a wide range of machines and equipment that offer safety and endurance, which we accompany with a full range of services: warranty, advice, service and spare parts.

* On an ongoing basis, our efforts are directed towards renewing and improving the product portfolio, so as to offer our customers ever more performing and easy-to-use products.

* In recent years, we have permanently increased our own transport capacity, in order to improve our delivery capacity, so that our customers can get the desired products in a maximum of 48 hours, even in the most difficult-to-reach areas of the country.

* We have also focused our efforts on the development of service capabilities, so that products that need the attention of our service specialists return to their owner in the shortest possible time, to be used at full capacity in the homemaker or farm .

Our customers are hard-working, passionate and skilled homemakers who believe that „the job is a golden bracelet”, those who have worked to be appreciated in their community, who ask and give help in turn to those around them. They are those who believe that a beautiful and rich country begins with their own household, and that is precisely why they are the most respected in their community. In their hands, our products gain value.

If you are interested in a product that is not currently in stock, contact us, and we assure you that we will find a solution to meet your needs.
